

Save Money and Buy Direct from the Manufacturer

At **Cambs Glass** we operate a large in-house glass processing facility which produces Sealed Units to the highest standards undergoing a 3-Point **quality control** system to ensure our units meet our high standards. We use the latest in glass technology to ensure our units reach the highest in **thermal efficiency** and meet current building regulations.

Our comprehensive choice of stock means we can generally meet most requirements while you wait. We can also deliver direct to your site if a large quantity is required or if you are unable to transport a large piece of glass.

We have a solid reputation within the area for reliability, **quality** and **speed** in terms of glass production, delivery and installation. To ensure **reliability** we carry out over 90% of glass processing in-house. This ensures the fastest possible turnaround for our customer orders whilst keeping a firm eye on production quality.

For All general enquires, to make an appointment or simply some glazing related advice we would be pleased to help and assist you.

We have machinery in-house to complete the following processes:

- **Single Glazing**
- **Double Glazing**
- **Triple Glazing**
- **Slim Line Units**
- **Polishing**
- **Mirrors**
- **Balustrades**
- **Coloured Glass Splashbacks**
- **Shower Screens**
- **Table Tops**
